

IGU Transport & Geography Commission

2021 online workshop on “Visualising Transport Geography” & Business meeting 19 MARCH 2021

The Transport & Geography Commission of the International Geographical Union kindly invites you to join its first online seminar. We still trust face-to-face meetings are key and favour social interactions. However, the still ongoing health crisis and the postponement of the 2020 International Geographical Conference to August 2021 have encouraged us to organise this online workshop and meeting in the meantime.

The event would take place through ZOOM

Attendance is free but please register through <https://zoom.us/meeting/register/tJMrce2ppjgqHNwR2JKyLQ6GoQa2mhYFQayq>
More information? Please contact Chia-Lin.Chen@liverpool.ac.uk (Commission's Secretary)
